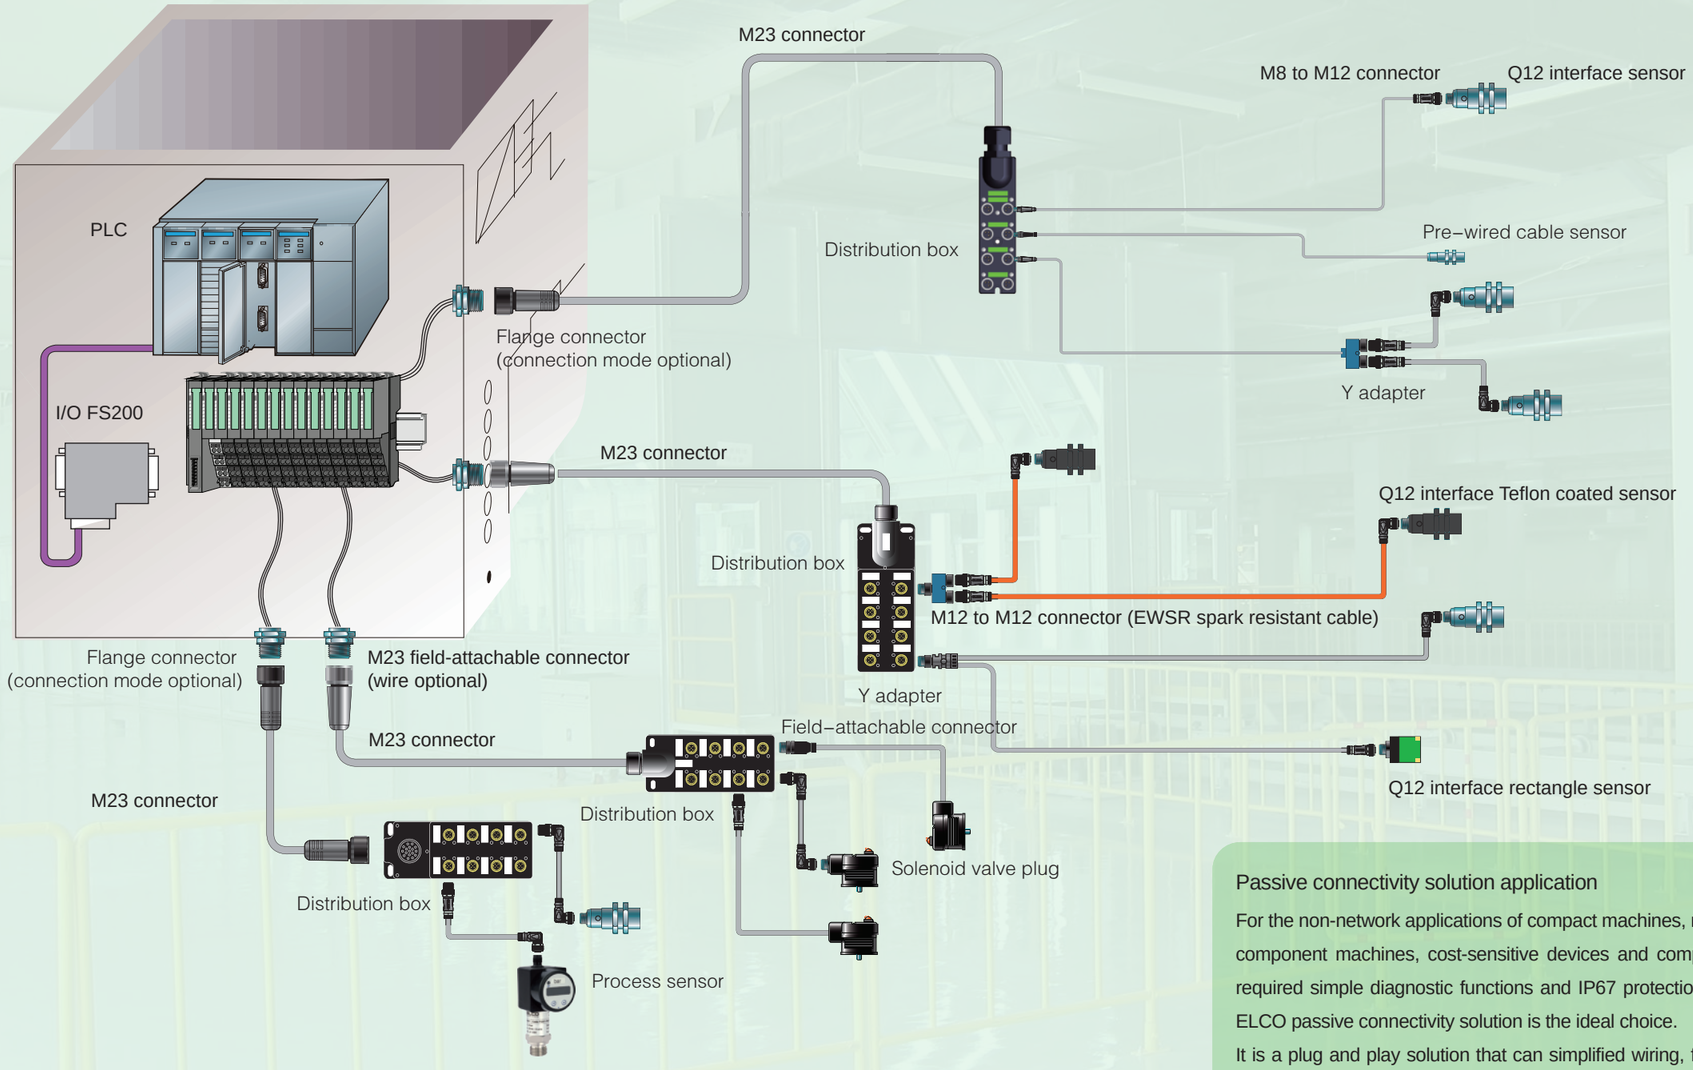
INDUSTRIAL AUTOMATION

Connectivity Product

Contents

Typical passive connectivity solution

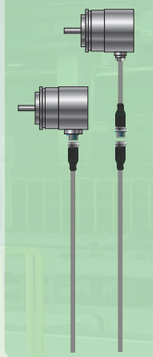


ELCO standard connectors covered 2-, 3-, 4-, 5-, 8-core connectors, which can connect between proximity switches, photoelectric sensors, ultrasonic sensors, process sensors (pressure sensors, flow sensors), mechanical limit switches, security curtains, encoders and other devices. We also provide customized cable jacket, length and connector functions to realize quick connection and apply to the different conditions in the field.

Optional distribution boxes including M8 and M12 interface, which provide customer to build plug and play solution. Different number of ports, various connection mode, customized cable length, and optional PNP, NPN can meet system requirements of PLC with different brands. We also provide passive and solenoid valve devices.

5-core, 8-core shielded M12 connectors
Match with safety curtains

Features:
- Fully shielding plugs
- Customized pin definitions
- Customized compatible adapters
- Optional field-attachable metal connectors



5-core, 8-core shielded M12 connectors
Match with encoders

Features:
- Fully shielding plugs
- Customized pin definitions
- Customized compatible adapters
- Optional field-attachable metal connectors
- Pigtail kit available

Passive connectivity solution application

For the non-network applications of compact machines, modular component machines, cost-sensitive devices and components required simple diagnostic functions and IP67 protection class, ELCO passive connectivity solution is the ideal choice.

It is a plug and play solution that can simplified wiring, fast and safe connection between sensors, limit switches, photoelectric sensors, solenoid valves, etc., connect to the I/O module or controller in the cabinet via cable from distribution box.

ELCO passive connectivity solution, including:

- Single-ended cordsets (one end with connector, the other end with homerun cable)
- Double-ended cordsets (both ends with connectors)
- Field-attachable connectors (reserved wiring terminals, PG waterproof connectors)
- Panel mounting sockets (flange mounting holes, sockets)
- Distribution boxes (M8, M12 interface, various of connection mode)
- Y-type modules and the Y-type cable distributors
- Solenoid valve plugs and extension components (A, B, C-type)
- Bulk cables (200, 300,500m)

Pre-Wired I/O Connectors

The pre–wired and plastic I/O connectors meet all requirements for safe, fast and reliable field connections. Our standardized pre–wired connectors guarantee steady and shock prove IP67 connections. Depending on the selected cable type, they cover all applications in difficult environmental conditions like chemical influences, high or low air temperatures and significant mechanical stress. Cables are available with screening shields to ensure secure and interference–free signal transmissions.

- Shock resistant, reliable contact
- 360° shielded connectors
- Protection class IP67
- Current rating 2-4 A (depends on number of cores)
- Optional 2, 3, 4, 5, 8 core cables available
- Various cable types:
  PVC, PUR, with or without shields, EWSR spark resistant
  STPE high elastic and high flexible
- Oil and chemical resistant, flame retardant, drag chain suitable
- Connectors M8x1, M12x1, 7/8", M23x1 threads
- Optional straight and angled connectors
- Built in LED indicators
- Optional A-coded, B-coded etc. interface
- Standard cable lengths 2m, all other lengths optionally available
- Special cables for special applications available on request

Y Splitter/Adapter

Y Splitter/Adapter includes different types of products, such as module type and cable output type. It can be used as simple distribution box and extend port access to reduce installation cost and save installation time. The material and structure of Y splitter/adapter are available in dirty and damp industrial environment and its protection rating is up to IP67.

Y splitter/adapter including M12 to 2×M12, M12 to 2×M8, M8 to 2×M12, M8 to 2×M8 and M8/M12 to homerun cable with customized length.It can be used for port extension, distribution box kit and distributed I/O connector extension.

Field-attachable I/O Connectors

Field-attachable I/O connectors can be used in the field where the different or special cable lengths are required, for example the special mechanical manufcturing filed. Elco supply straight /angled connector of 3, 4, 5 cores and Y Splitter, and its cable is fixed by screw or clamp and other ways. The contacted elastic rubber ensure tightness, and the maximum cable diameter is 8mm. Cable section is from 0.25 to 0.75 mm², and wire oulet can be adjusted within 90° for angled connector according to connector terminal layout ,shielded(metal) type is available for straight connector, so all the products installed under the insert state can meet the requirement of IEC60529 protection class IP67.

- Screw locked
- With cable sleeve (prevent from bending)
- Cable clamp ring reducing the tension
- Protection class IP67
- Two housing types: plastic and zinc alloy casting housing
- Wired against customer's requirement, assembling and installing in the field
- M8 interface: 3 and 4 cores optional, M12 interface: 4 5 8 cores optional
- Straight and angled connectors optional
- Zinc casting housing with shield function, using in the harsh environment

Cable is an important part of the pre-wired connector, therefore it's very important to select the right cable for corresponding connector. ELCO connectivity system provide cables with various jackets and functions for different application environment and field.

PVC Cable

The cable with PVC jacket and its good mechanical performance (e.g. tensile strength, crack and abrasion resistance) is suitable for most applications in industrial installations. The cable is weatherproof and resistant to oil and chemical solutions. It is therefore a standard and economic solution for field installations to link I/O systems.

Cable Type	Conductor Cross Section	Optional Cores No.	Wire Diameter(mm)	Matching Products
PVC（gray）	0.25mm²	3，4	4.4±0.15	M8
PVC（gray）	0.34mm²	2，3，4，5	5.2±0.15	M12

PUR Cable

The PUR jacket cable with its superior mechanical performance (e.g. tensile strength, crack and abrasion resistance, weather and oil/chemical resistance) is suitable for applications in extreme environments. It is therefore an ideal solution for industrial installations to link I/O systems in a harsh environment.

Cable Type	Conductor Cross Section	Optional Cores No.	Wire Diameter(mm)	Matching Products
PUR（gray）	0.25mm²	3，4	4.4±0.15	M8
PUR（gray）	0.25mm²	8	6.4±0.15	M12
PUR（gray）	0.34mm²	2，3，4，5	5.2±0.15	M12

EWSR Cable

The special jacket material can enhanced mechanical properties (including tensile strength, crack resistance and wear resistance) and have high temperature resistance. Once you choose this cable, the detailed field environment and requirements must be clear.

Shielding Cable

The tinned copper braid shielding layer provides a good electromagnetic shield against interferences. Shielded cables therefore improve safe signal transmissions.
A wide range of special cables for special applications are available upon request. Please contact us to disucuss your exact requirements.

Single-ended I/O Cordsets- M12 (Straight-female)

Description:

Used for sensors, I/O connector connecting. Standard M12(straight-female) threaded connection.
2, 3, 4, 5, 8, 12-core are optional. Customized cable lengths. Degree of protection IP67.

Features:

- PVC, PUR cable are optional
- A-coded interface
- LED indicator

* All technical information about the raw cable for connectors, please refer to the “cable” section (P166).

Attn： ①: Customized cable lengths are available.

②: Cable jacket or function can be customized according to the requirements.

Additional Information

Cable Length

Single-ended I/O Cordsets-M12 (Angled-female)

Description:

Used for sensors, I/O connector connecting. Standard M12(angled-female) threaded connection.

2, 3, 4, 5, 8, 12-core are optional. Customized cable lengths. Degree of protection IP67.

Features:

■ Shielded cable, welding spark resistance EWSR,
■ A-coded interface

* All technical information about the raw cable for connectors, please refer to the “cable” section (P166).

Double-ended I/O Cordsets-M12 (female) to M8 (male)

Description:

Used for sensors, I/O connector connecting. Standard M12, M8 threaded connecting. Advanced design idea of female-to-male ends connector. Straight series, angled series and 3, 4-core are optional. Customized cable lengths. Degree of protection IP67.

Features:

- PVC, PUR cable are optional
- A-coded interface
- M12 (female) with LED to M8 (male)

	8-core female angled	LSBO12.8-9/M/S/C	8	2A/30V	6-8mm

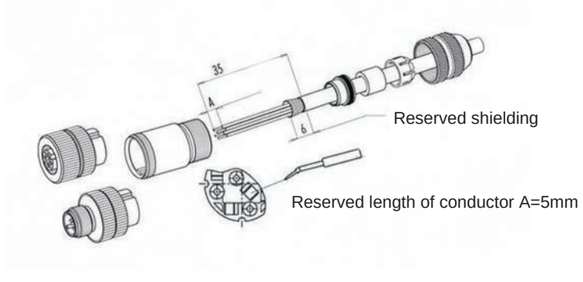
Selection Instructions

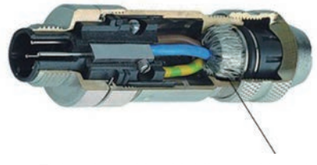
LSO12.4 - 0/M/S/C

Attn：Standard

Additional Information

1. Cross section of core, max.0.75mm^2.
2. If it connect to distribution box or IP67 module, please note the right match with the internal slot to avoid affecting the overall wiring.
3. The cable jacket peeled length is 20mm, and the wire peeled length is 5mm during mounting process.





Fixing the cable shielding and housing

Field-attachable I/O Connector - M12(Straight/angled-male)

Description:

Used for sensors and I/O connecting. Standard M12 threaded connection. Designed with the male port. 4, 5, 8-core are available. PG7(4-6mm) and PG9(6-8mm) output interface are optional. Degree of protection IP67.

Features:

- Flexible screw joints and pin contact.
- Metal housing; shielding function.

Single-ended I/O Cordsets-M8 (Straight-female)

Description:

Used for sensors, I/O connector connecting. Standard M8(straight-female) threaded connection.
3, 4-core are optional. Customized cable lengths. Degree of protection IP67.

Features:

- ■ PVC and PUR cable are optional
- ■ A-coded interface
- ■ LED indicator

* All technical information about the raw cable for connectors, please refer to the “cable” section (P166).

Double-ended I/O Cordsets-M8 (female) to M12 (male)

Description:

Used for sensors, I/O connector connecting. Standard M12, M8 threaded connection. Advanced design idea of female-to-male ends connector. Straight series and angled series are available. 3, 4-core are optional. Customized cable lengths. Degree of protection IP67.

Features:

- ■ PVC and PUR cable are optional
- ■ A-coded interface
- ■ M8 (female) with LED to M12(male)

* All technical information about the raw cable for connectors, please refer to the “cable” section (P166).

Connectivity

7/8" Connectors

ELCO provides pre-wired power connectors and bus connectors for industrial automation field. The pre-wired cordsets are easy for the installation of filed bus, reducing wiring errors or incomplete shielding in the process of field wiring, to ensure that the bus connection is correct and normal communication.

Single-ended and double-ended cordsets are available, which are used for power supply, communication of Profibus/ProfiNet, DeviceNet module. Straight or angled type are optional, customized cable length according to the field configuration, 7/8'' thread interface.

- Profibus/ProfiNet power supply: Mini-Change (5P), field-attachable connectors.
- DeviceNet power supply: Minichange (4P), field-attachable connectors.

Connectivity

Single-ended I/O Cordsets- Φ8 (Straight- female)

Description:

Used for sensors, I/O connector connecting. Standard Φ8(straight-female) threaded connection.
3, 4-core are optional. Customized cable lengths. Degree of protection IP67.

Features:

- PVC, PUR cable are optional
- A-coded interface
- LED indicator is optional

* All technical information about the raw cable for connectors, please refer to the “cable” section (P513).

Automation Connectors

ELCO provides pre-wired power connectors and bus connectors for industrial automation field. The pre-wired cordsets are easy for the installation of filed bus, reducing wiring errors or incomplete shielding in the process of field wiring, to ensure that the bus connection is correct and normal communication.
Single-ended and double-ended cordsets are available, which are used for power supply, communication of Profibus/ProfiNet, DeviceNet module. Straight or angled type are optional, customized cable lengths according to the field configuration, M12 threaded interface.

- Profibus M12(B-coded), field-attachable connectors.
- DeviceNet Minichange, M12(A-coded), field-attachable connectors.
- ProfiNet M12(D-coded), RJ45 cordsets, field-attachable connectors.

Profinet - M12/M12 (Pin) Pre-wired Cable

Double-ended M12 D-code Pre-wired Cable

Cat 5e, 100Mbit/S, 4-pin, IP67

Support: PROFINET EtherCAT EtherNet/IP ETHERNET POWERLINK sercos the automation bus

Apply to: Connection of devices on field.

Technical Data	
Material	
Circular Cordsets	PUR
Contact	Gold plated
Connecting Nut/Bolt	Nickel plated brass
Cable	For details, see cable list.
Operating Voltage	60V (30V UL)
Operating Current	4A
Conductor	2x2x22AWG，shielded twisted pair
TIA/EIA Grade	Cat5e
Certificate	CE，UL
Protection Class	IP67
Ambient Temperature	-30...+80℃
Mechanical Life	>100

Type List

Profinet Field-attachable Connector

- For Profinet field connection
- RJ45 interface

Technical Data

Material	
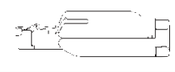
Housing	Zinc alloy
Contact	Gold plating
Cable	
Cable Material	22-24 AWG
	0.25-0.34mm²
Outer Diameter	6.0-6.9mm
Using Grade	
Protection Class	IP20
Ambient Temperature	-25...+85℃

Type List



Cross section	Max. current	Voltage	Outer diameter	Type	Fig.
100Base-TX(4wire) Male 1. Yellow(TD+) 2. Orange(TD-) 3. White(RD+) 4. N/C 5. N/C 6. Blue(RD-) 7. N/C 8. N/C 12345678	1.75A	60V	6.0-6.9mm	ENS45-G1	FIG1

CC-Link Cable

	CC-Link Standard Cable
Type	87-0001
Condition	Fixed installation 3x20 AWG
Rated Voltage	300V
Ambient Temperature	-30...80℃
Max. diameter	7.7±0.3 mm
Conductor	Bare copper wire (7*0.32mm)
Impedence	17.5 ohms/100ft
Wire	3 wires stranded cable
Shield	Tined copper braid
Jacket	PVC , Red
Communication cable color	Yellow+White+Blue
Bending diameter	10*Cable diameter
Bending life	—

* MOQ : 50m

CC-Link - Single - ended Cordsets

Features:

- PVC(TPU), waterproof(oil-proof)
- Low impedance design
- 360° shielded

Technical Data

Material	
Contact Carrier	Nylon
Molded Head	PUR
Coupling Nut	zinc die cast alloy
Using Grade

Distribution Box

Elco supplies metal and plastic housing junction box. Metal junction box is circular connector wiring, while plastic junction box isdivided into straight wiring and terminal wiring products. All junction box products up to IP67 provide economical and practicalwiring system in the sensors and actuators working area. Sensing and executive signal need transferring and extending, and thejunction box is imperative, because it can connect with large criss-cross controlling system easily and quickly. Meanwhile, Elco has multi-branch box for DeviceNet, incluing 4, 6, 8 terminal inlet and 2, 4, 6 terminal inlet\outlet products.

- LED indicator for diagnosing input signal and power error of all products.
- Juntion box interface for selection: M8 M12
- Supplying 4 and 8 channel products for selection.
- Wiring type: pre-wired, M23 interface wiring and terminal wiring
- Metal and plastic housing for selection
- One I/O interface importing 2 signals
- Field wiring products with plastic terminal choosing 2-zone power mode
- Indication function: PNP NPN

Plastic distribution box ESP4 series (M8 socket, with M12 plug connector)

Description:

Plastic housing, distributed design, 4-way, single/double signal.

Features:

- Optional output (PNP/NPN)
- LED indicator and high protection class IP67
- Compact size - 93mm, especially suitable for small space installation
- Standard 3m PUR cable for M12 connector, optional cable material and length

Connectivity

Plastic distribution box ESP10 series (M8 socket, with pre-wired cable)

Description:

Plastic housing, 10-way, pre-wired cable, single/double signal.

Features:

- Optional output (PNP/NPN)
- LED indicator and high protection class IP67
- Compact size - 154mm, especially suitable for small space installation
- Standard 3m PUR cable, optional cable length

Type List	ESP10-8-2P-3/P	ESP10-8-2N-3/P	ESP10-8-3P-3/P	ESP10-8-3N-3/P

Plastic distribution box ESP4 series (M12 socket, Terminal field-wired)

Description:

Plastic housing, split design, 4 channels, single signal or dual signal, indicator for action display, IP67.

Features:

- LED indicator PNP, NPN optional
- Single signal and dual signal provided
- Terminal type wiring to meet the flexible configuration of different cable outlet lengths
- Optional bridging mode to achieve district power supply (Power 1, 3 ports and 2, 4 ports respectively)

Type List	ESP4-12-2P-Q	ESP4-12-2N-Q	ESP4-12-3P-Q	ESP4-12-3N-Q	ESP4-12-4P-Q	ESP4-12-4N-Q

Connection for Sensors/Actuators	4-pin M12 female		5-pin M12 female			
Locking Sockets	Threaded M12x1					
Dimensions	Fig. 1, Fig. 2, Fig. 5		Fig. 1. Fig. 2. Fig. 6		Fig. 1. Fig. 2. Fig. 7	
Pin Assignment	Fig. 3		Fig. 4			
Wiring Diagram	Fig. 8	Fig. 9	Fig. 8	Fig. 9	Fig. 8	Fig. 9
Supply Voltage	10...30VDC (24VDC)					
Supply Voltage Indicator	LED green					
I/O Channels	4					
Signals per Port	1 or 2					
Status Indicators	LED yellow					
Operating Current	Max. 2A / per contact / 4A/channel					
	8A				16A	
Housing Material	Plastic					
Protection Class	IP67					
Temperature Range	-40...+80℃					
Resistance	Good resistance against chemicals and oils. The resistance to aggressive					
	media should be individually verified for your application.

Connectivity

Plastic distribution box ESP8 series (M12 socket, Terminal field-wired)

Description:

Plastic housing, split design, 8 channels, single signal or dual signal,
indicator for action display, IP67.

Features:

- LED indicator PNP, NPN optional
- Single signal and dual signal provided
- Terminal type wiring to meet the flexible configuration of different cable outlet lengths
- Optional bridging mode to achieve district power supply (Power 1, 3 , 5, 7ports and 2, 4, 6, 8 ports respectively)

Type List	ESP8-12-2P-Q	ESP8-12-2N-Q	ESP8-12-3P-Q	ESP8-12-3N-Q	ESP8-12-4P-Q	ESP8-12-4N-Q

Cable

ELCO provides PVC, PUR cable and other cables with special specifications and functions, which can meet the requirement of flexible field wiring. With the field-attachable connector and distribution box with spring clamp terminal, ELCO can provide a complete solution for the customer.

Description

L200 / E127

Category

L1：……

……：Standard 1m

L200：200m/reel

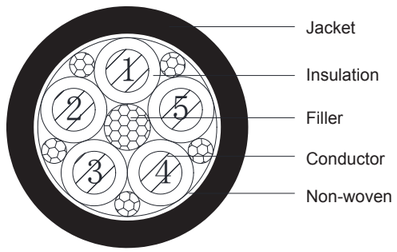
Conductor	Bared Copper Stranded	Voltage rating	600V
Cross section	1.5mm²	Rated Temperature	105℃
Construction	30/0.254mm	Max.conductor DC resistance（20℃）	13.7Ω/km
Strand Dia.	1.61mm	Dielectric Strength AC	4.0kV/1min
Insulation	PVC	Mechanical Performance	
Nom.Thickness	0.38mm		Jacket
Min.Thickness	0.33mm	Material	PVC
Insulation Dia.	2.50±0.10mm	Tensile strength	≥10.3MPa
Insulation colour	1.brown 2.white 3.blue 4. black 5.gray	Elongation	≥100%
Assembly	5C×1.5mm²+W	Aged condition	136±1℃×168h
Material	Non wove	Percent of original tensile strength	≥70%
Filler	optional	Percent of original elongation	≥65%
Jacket	PVC	Cold Bend(-40±1℃X4hrs)	NO Crack
Nom.Thickness	0.76mm		
Min.Thickness	0.61mm		
Outer Dia.	8.70±0.30mm		
Colour	black		

Power Cable - PUR



Color code	Color	Core
BN		1
BU		2
BK		3
WH		4
GY		5

Type List	L50/E635	L100/E635
Specification	50m/reel	100m/reel

Technical parameters			
Construction	5C×1.5mm²+W	Electric Performance	
Conductor	Bare copper stranded	Voltage rating	600V
Cross section	1.5mm²	Rated Temperature	-40~80℃
Construction	192/0.10mm	Max.conductor DC resistance（20℃）	13.7Ω/km
Strand Dia.	1.60mm	Dielectric Strength AC	2.0kV/1min
Insulation	PP	Min bending radius	Flexing 10*OD Flxed 7.5*OD
Nom.Thickness	0.38mm	Rated current	12A
Min.Thickness	0.33mm	Mechanical Performance	
Insulation Dia.	2.40±0.10mm		Jacket
Insulation colour	1.brown 2.blue 3.black 4.white 5.gray	Material	PUR
Assembly	5C×1.5mm²+W	Tensile strength	≥10.3MPa
Material	Non wove	Elongation	≥100%
Filler	Cotton	Aged condition	113±1℃×168h
Jacket	PUR（Oil resistance）	Percent of original tensile strength	≥70%
Nom.Thickness	0.76mm	Percent of original elongation	≥65%
Min.Thickness	0.61mm	Chain test	20times/minute, distance：1.0m
Outer Dia.	8.70±0.20mm	bending radius	100mm ≥5 million times
Colour	black	Oil resistance	IRM 902：100℃×24hrs
		Tensile strength of original	≥60%
		Elongation of original	≥60%
