

Serving the owners and operators of automated machinery with world class sensor products and downtime reduction services to apply them.

Colored LED Touch Buttons

Multi-Colored LED Dome Lights

Signal Column Lights

Signal Tower Lights

IO-Link LED Dome Lights

IO-Link LED Stack Lights

IO-Link LED Machine Lights

Panel Mounts

Linear LED Machine Lights

Field Connectors - 4, 5, 8-pin

Sensor Cables - 4, 5, 8-pin

Lighting Accessories

PHOTOELECTRIC SENSORS

HTMSENSORS.COM

H30 PHOTOELECTRICS

- Miniature Housing
- Sensitivity Adjustment via Potentiometer
- IO-Link for Process Optimization

RP74 PHOTOELECTRICS

- Long Range Photoelectrics
- Available with Built-in On-Delay, Off Delay, One Shot Timers
- NPN, PNP, Relay and Solid State Models

RP18 PHOTOELECTRICS

- M18 Threaded Lens
- Visible Red LED
- Several Mounting Options
- Multi-voltage

M18 PHOTOELECTRICS

- Durable Metal Housings
- Quick-connect for Easy Installation
- Available in Laser Models

MP PHOTOELECTRICS

- Mounts on Standard or Flat Bracket
- Long Range - Up to 30 m
- Several Detection Modes
- Compact Size

RP76 PHOTOELECTRICS

- Long Range Photoelectrics
- Available with Built-in On-Delay, Off Delay, One Shot Timers
- NPN, PNP, Relay and Solid State Models

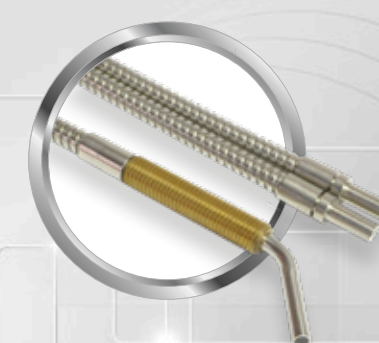

H62 LASER PHOTOELECTRICS

- Standard 50 x 50 mm Housing
- Rotatable M12 Connector
- High Quality
- Many Operating Modes Available

H10 PHOTOELECTRICS

- Ultra-miniature Housing
- Thru-beams with Front or Side Options
- Metal Sleeves to Prevent Damage from Over Tightening During Mounting
- Self-contained with Built-in Amplifier

GLASS FIBER OPTICS

- Remote Sensing in Areas Where Space is Restricted or Tight Viewing Angles are Required
- Stainless Steel Sheaths
- Industry Standard Mounting and Heads

PLASTIC FIBER OPTICS

- Tubular, Array and 90 degree Heads
- M3, M4 and M6 Industry Standard Units
- Smooth Body Units

Photoelectrics and Laser Solutions.
The Right Sensor for your Applications.
