

Flotronics Automation Partners with Thomson

Flotronics Automation is excited to announce its newest partnership, with Thomson Linear! Thomson's very complete and competitive offering (as seen below) compliments well with Flotronics' existing products from Nexen, Tolomatic, Oriental Motors, Numatics, Minitec, and Cone Drive.

With the addition of Thomson's 60 years of industry experience to Flotronics 35 years of proudly serving the Michigan Industrial Market, we are confident that this new partnership will be a benefit to our customers in this ever evolving industry.

Flotronics Automation is here to help! We can assist in the sizing of your next actuator, offer you a great price for rail and bearings or directing you to the best product tools available just to name a few. We can also offer a complete solution from our wide selection of available products.

Contact us anytime to see how we can help you on your next application!
